Coordinate a Survey

The place for all school health survey needs

The Michigan School Health Survey System is an online system for schools to register and self-manage the survey process for a wide variety of school health surveys. This survey system and reports are provided at no cost to schools and districts.

Student, staff and parent surveys currently available to implement locally include:

- Michigan Profile for Healthy Youth (MiPHY)
- Michigan School Climate Assessment Instrument (MiSCAI)
- Bully-Free Schools Survey (BFSS)

To get more information on school health surveys available, go to www.michigan.gov/schoolclimate.

In order to access the system, you must hold a valid MEIS account and have submitted a [Security Agreement](#) form signed by the district superintendent.

Step 1: Enrollment Data

The information collected at this page allows buildings to register and administer any survey available in this system. This step only needs to be completed one time per school year. Go to the Home page to view a list of available surveys.

Instructions:

- Enter total number of students for each grade listed in the enrollment box. Student counts must be entered in each box, regardless of grades being surveyed.
- Enter total building staff count in the enrollment box. The staff count includes all instructional and non-instructional staff regularly in the building.
- Select save button after all numbers are entered.
- Proceed to Step 2. Registration to register for surveys.

The system will calculate and display the sample size from the student count and staff count. The survey sample size is the minimum number of randomly selected students required to be surveyed for valid survey results.

Buildings with low student counts (e.g., 11-19 students) may not receive results if response rates are less than 10 students per question. Results are suppressed for less than 10 valid student responses in order to preserve student anonymity.

Save

After enrollment numbers are entered and saved, you may proceed to Step2: Registration.

- Enter student counts for all grades to determine sample size
- Student counts over 125 per grade eligible for random sampling
- Student counts below 125 per grade must offer survey to all students in that grade
- Enter staff count to track progress
- Staff count required regardless of staff survey participation

Registration

Step 2: Registration

Registration allows buildings to choose surveys to implement. This step can be revisited throughout the school year to register for additional surveys. Go to the Home page to view a list of available surveys.

Instructions:

- You can register by either selecting a survey OR building from the drop down.
- If selecting from the survey drop down, a list of buildings specific to your access-level will be displayed.
- If selecting from the building drop down, a list of available surveys will be displayed.
- Once survey(s) or building(s) are selected, you must click on the submit button to save your changes.

You may unregister a survey; however, if a school has administered at least one survey during this collection, the unregistration option will not be available.

Registration for a survey must be completed before the survey login and password can be generated.

Step 4: Survey Progress

From this page, you can view current survey progress of the registered districts and schools. Information entered at Enrollment Data and Registration will display along with the survey count and building/survey status.

The **survey count** includes any survey where at least one question on the survey is answered. This number may differ from the reported valid surveys based on survey analysis procedures. Survey count is a combined number of all participants in a building by survey.

Building/Survey status will show one of the following by survey:

Registered — Survey registered, no surveys initiated

In Progress — At least one survey initiated

Complete — Survey closed, no more passwords will be generated

To close a survey for a building or district, please visit the Close Survey page.
